CRAFTECH
COMPUTER SOLUTIONS

WE FOCUS ON YOUR IT
so you can focus on your business

REMOTE MANAGED SERVICES

RMS is a cost-effective alternative to an in-house IT department. With CrafTech Remote Managed Services you can "grow as you go." This means you have the flexibility to start with the managed IT services that make the most sense for your organization, and then grow with us as your needs grow.

TECH SUPPORT

We are here for you. We not only guarantee our work – we back it with certified help desk technical support. CrafTech Computer Solutions provides a wide variety of Technical Support to all of our customers, including Internet Consulting.

NETWORKING

We design and build custom networks that enhance office performance. We implement networks from scratch or help maintain existing networks, and can build and maintain custom network systems based on your needs.

SERVER INSTALLATION

We have years of experience and a high level of expertise in server installation, data migration and configuration. CrafTech technicians take every precaution in all new installations, upgrades, planning, implementation, and data migration to ensure your server security.

UNIFIED WIRELESS NETWORK

CrafTech can install a smooth-running wireless operation, with high-performance wireless network access, customized to your needs. CrafTech has a proven record of installations and many satisfied customers!

CRAFTECH
COMPUTER SOLUTIONS

Here at CrafTech Computer Solutions, we strive to provide our clients with the best possible IT services and support. From professional IT consulting, proactive network maintenance, remote IT managed services and network support, to unified wifi, cloud computing, and so much more, we will be able to suit your needs.

DISASTER RECOVERY

Having a reliable online data backup is critical for business disaster-recovery plan. We believe that a great online backup plan should provide you with more than a simple off site data storage archive. What's more, CrafTech DataBank's off-site data storage is more affordable than doing it yourself!

PHONE SYSTEMS

Our goal at CrafTech is to help your company be successful at a cost-effective rate. Through our communications solutions for small and large businesses, we can help your company provide a Virtual IP Phone System with voicemail, auto-attendants, multi-line capabilities, and more.

EMAIL SERVICES

CrafTech offers a an ad-free, high level of email support. We combine sophisticated spam filtering with the highest-grade virus protection. We offer a multi-tiered, anti-abuse service that blocks and removes as much as 93% of unwanted e-mail. CrafTech will help you connect with confidence.

WEB SERVICES

At CrafTech, we pride ourselves on creating and hosting websites. Our designers and programmers utilize a variety of web languages including html, xml, php, perl and asp. We are also experts with on-line commerce systems.
